- Families with small children are recommended to **not** participate in the PowerPoint and just join in after for the opening of the hive.

### Notes:

Remember when we get asked about our “Tours” to make it clear we offer Educational Presentations and not so much a tour of the facility. Customers should know what they are paying before they begin. However, be careful to not talk about what we don’t offer and make the conversation about what we can do for them! We can always talk to customers for free and give them a personalized experience with the amount of knowledge they’d prefer.

Families with children under 13 are recommended to take the **Basically Bees** presentation and not the full length **All About Bees**. If no one is signed up for the **All About Bees** and you have a family interested in the presentation, you may run a **Basically Bees** in lieu of the **All About Bees** for that group. However, if anyone shows up for the **All About Bees** presentation before the start time it must run as scheduled.
